Different types of clothes

We wear different types of clothes.

Clothes help us to cover our body.

Clothes also protect us from the heat, cold, rain and harmful animals and insects.

Clothes are worn according to the weather.

On hot days we wear light cotton clothes. They help to keep our body cool.

We get cotton from cotton plant.

In cold days we wear woollen clothes, these clothes keep our body warm.

We get wool from sheep.

On rainy days we wear raincoats and rubber shoes. They keep our body dry.

During autumn and spring it is neither too hot nor too cold. So we wear any clothes we like.
