

STEPPING STONE SCHOOL (HIGH)

CLASS: 1

SUB: **Environmental Studies**

WORKSHEET: 17

DATE: 15.06.20

TOPIC: **Plants.**

TIME LIMIT: 30 MINUTES

Please read the notes carefully and on the basis of it copy down the question and solve them on a sheet of paper data wise. Keep the worksheet ready in a file to be submitted on the opening day.

Different types of plants

Some plants grow on land and some grow in water.

Plants that grow on land include trees, shrubs, herbs, climbers and creepers.

Big plants are called trees eg. coconut, neem, mango, gulmohar etc.

Small plants with woody stems are called shrubs eg. rose, cotton, hibiscus etc.

Very small plants with soft stem are called herbs. eg. mint, grass, coriander etc.

Plant that needs support to grow is called climber eg. money plant, pea plant etc.

Plant that creeps along the ground is called creeper eg. pumpkin, watermelon etc.

Plant that grows in water is called aquatic plant eg. lotus, lily, duckweed etc.

Big Trees

Coconut Tree

Neem Tree
