

CLASS: V

Subject: Social Studies

Date: 13/06/2020

Topic: Answer Keys for Worksheets 10, 11, 12 & 13

Worksheet: 10, Date: 08/06/2020

Fill in the blanks:

1. Neolithic 2. Chalcolithic

Write True/False and rewrite the correct one :

1. False

The wheel was invented in the Neolithic Age.

2. False

In the Palaeolithic Age , people lived only in caves and trees.

Answer the following:

1. Towards the end of the Neolithic Age, around 5000-4000 BCE, humans discovered the use of metals. This age is known as the Chalcolithic Age.

2. In the Chalcolithic Age copper was the first metal to be used by early humans. Thus, this age is also known as the Copper Stone Age.

3. Around 2000 BCE, humans also learnt to make bronze – an alloy of copper and tin. Thus this period is known as Bronze Age.

Worksheet No: 11, Date: 10/06/2020

Name the following:

1. Weather 2. Atmosphere 3. Climate.

Write True/False and rewrite the correct one :

1. False

Weather reports tell us, it can be hot or cold, dry or wet, still or windy to be on a day.

2. False

Weather is the state or condition of the atmosphere at a place over a short period of time.

3. True.

Choose the correct option:

1. c. the amount of traffic to expect on the road.

2. a. 30 years.

3.c.angle of the Moon's rays.

Worksheet No :12, Date: 11/06/2020

Name the following:

1.Altitude 2. Water vapour 3. Humidity 4. Wind 5. Thermometer.

Write True/False and rewrite the correct one:

1.False

The hills are usually cooler than the plains.

2.False

Climate change has serious effects on human beings.

Answer the following:

1.The state of the atmosphere at a particular place and time is called weather.

This part of the answer is in Worksheet 13.

2. Climate is the average weather conditions in a large area, over a long period of time – typically 30 years or more.

The factors affecting the climate of a place are: 1.Latitude, or Distance from the Equator. 2. The altitude of a Place. 3. Distance from the Sea. 4. Humidity and Precipitation. 5. Winds.

3.The winds that blow from the sea cool the places near the sea in summer and keep them warm in winter. Coastal areas

also usually receive more rainfall. Therefore, the climate of places by the sea is moderate.

Worksheet No: 13, Date: 12/06/2020

Name the following:

1.Meteorology 2.Climatology 3.Global Warming 4.Climate Change.

Answer the following:

1.The elements of which the weather depends on are: a. a)Temperature b) Precipitation c) Pressure d) Winds and Humidity.

2.Periods of warm climate have been followed by long periods of bitter cold, when large parts of the Earth were covered by sheets of ice. These were called the Ice Ages.

Around 10,000 years ago, the last Ice Age came to an end.

3.As Mumbai is located near the sea experience moderate climate where as Delhi is located far away from the sea experience extreme climate.

4. The rapid warming of the Earth due to human activities is called global warming.
