

CLASS: III

Subject: Science

Date:30/04/2020

Topic: Living & Non-Living Things

Time Limit: 30 Mins

Worksheet No. : 4

[Copy the questions following the notes and solve them on a sheet of paper date wise. Keep the worksheets ready in a file to be submitted on the opening day.]

In our previous classes we read about the different characteristics of living things, today we will learn about non-living things. As we know, non-living things are lifeless things, they can't grow, eat, move, breathe, do any activities etc.

So today you will learn the difference between living things & non-living things.

Living things

1. These things can move.
2. These things grow.
3. These things breathe.
4. These things eat.
5. These things can reproduce & finally die.

Non-Living things

1. These things can not move.
2. These things can not grow.
3. These things can not breathe.
4. These things can not eat.
5. These things can not reproduce & do not die too.

Assignments
