

**CLASS: IV**

**Subject: Mathematics**

**Date: 24-06-2020**

**Topic: Mental maths**

**Time Limit: 30 Mins**

***Worksheet No. : 9***

*(Solve the given exercises in your Mental Maths book using a pencil. Write the date and Worksheet number at the top of each page. You must do the rough work in your book.)*

**##Good morning children**

**##I hope you all are fine**

**##Let us begin our today's worksheet**

**##Today we will solve few more mental maths questions :-**

**Mental Maths :-**

**Exercise 12**

**1. 2 days - 20 hours = \_\_\_\_ hours. ( Hint : At first convert 2 days into hours then subtract. 3 days =  $3 \times 24$  hours = 72 hours)**

2. Rs. 15.85 + Rs. \_\_\_\_\_ = Rs 20 ( Hint : subtract the smaller number from the greater one. Rs 30 - Rs 25.75 = Rs.4.25)

3.  $196/14 =$  ( Hint : Divide)

4.  $(15*7)+30 =$

5. 23 km 500 m = \_\_\_\_\_ m ( Hint : 24 km 700 m =  $24*1000 + 700 = 24000 + 700 = 24700m$ )

6.  $750/ \underline{\hspace{1cm}} = 50$  ( Hint : Divide the greater number by the smaller one).

7.  $149+151 = \underline{\hspace{1cm}}$  tens.

8.  $110-50-55 =$

9.  $58/58 + \underline{\hspace{1cm}} = 2$

10. Add 3 fifteen times.

### Exercise 13

1. Rs 19 - Rs 7.80 =Rs \_\_\_\_\_ ( Hint : same as question number 2 of ex. 12)

2. Take away 9 sets of 7 from 2 hundreds. ( Hint : 6 sets of 9 =  $6*9=54$  , now follow the same process at first, then subtract the product from 200).

3. One more than 9999 is -

4. How many 4s are there in 52 ? ( Divide)

5. How many tens are there in 3808? ( Divide)

6. Find the sum of 141 and 159 .

7.  $3060 / 30 =$

8. Take away half a dozen from a score. ( Hint : 1 score = 20 units ,and 1 dozen = 12 units. Now divide both of them by 2 then subtract and find your answer).

9.  $(17*9) - (16*8) =$

10. 20 sets of 6 = 12 sets of \_\_\_\_\_ ( Hint : Find out the answer on the left hand side, then divide that product by 12 ).

**This was all for today's worksheet**

**Stay home Stay safe**
